Problem Statement:

We cannot call a Vac Truck for one clogged catch basin. Running water limits the use of a Vac Truck in the event of a flooded basin.

Discussion of Solution:

Unit quick couples to a skid steer machine and offers a 30' depth of debris removal capability. Operator can choose a sand-removal bucket or a debris-removal bucket.

Cost:

Approximately \$1,015.00

Savings & Benefits:

This will clean a clogged catch basin without sending a man down in it. It will also remove a catch basin top that has been dropped in.
